

## **Voucher scheme helping residents with fuel costs**

Your Energy Sussex has joined forces with Citizens Advice to help vulnerable residents struggling to meet their fuel costs.

The council-backed energy supplier has used money from its fuel poverty fund to make emergency fuel vouchers available to qualifying households in Sussex.

The vouchers (£28 for a single person and £49 for a family) are for vulnerable residents (i.e. due to age or a health condition) who are on limited incomes or means-tested benefits and are facing difficult financial circumstances and with a pre-payment meter.

The vouchers, which are limited to one per household, are available from Wealden Citizens Advice along with the full eligibility criteria. Please call Adviceline on 0300 330 9022 to ask for more information. **You do not have to be a Your Energy Sussex customer to receive a voucher.**
